linkedin.com/in/shahad-alsubaie | Portfolio

Professional Summary

UI/UX and product designer who turns user research into clear, easy-to-use iOS apps. Hands-on experience from the Apple Developer Academy: interviews and surveys, wireframes, prototypes and usability testing, working with developers in cross-functional teams. Skilled at turning problems into clear product ideas with Design Thinking and Product Thinking. Background in Applied Linguistics, with strong communication and presentation skills.

Experience

UI/UX Designer – Apple Developer Academy First Year Program
Apple Developer Academy at Tuwaiq | Aug 2025 – Jun 2026

- Designed iOS apps end to end through challenge-based projects, from problem discovery to final presentation.
- Ran user interviews and surveys to understand needs and validate problems.
- Designed wireframes, interactive prototypes, user flows and interfaces following UI/UX principles.
- Collaborated with multidisciplinary teams to develop iOS apps and improve usability and the user experience.
- Prepared and delivered product presentations explaining the problem, target audience, proposed solution and product value.

English Teacher | Tarbiyah Islamic Schools (TIS) | Jan 2023 – Jun 2024 and Sep 2024 – Jun 2025
Apple Foundation Program | Apple Developer Academy at Tuwaiq | 2024 | 1 month
English Trainer | Al Faisal International Academy | Jul 2022 – Nov 2022

Education

Bachelor of Arts in Applied Linguistics | Princess Nourah bint Abdulrahman University | Sep 2018 – Jun 2022

Projects

- **Achivoo (iOS, on the App Store)** – gamified goal and task app with streaks, progress tracking and a buddy character. Designed the interface, logo and most of the visual design.
- **SuppSafe (iOS)** – supplement safety app that tracks supplements and flags interactions. Conducted user research, designed the user experience, interfaces and user flows, and supported basic implementation in SwiftUI.
- **NIRA-FOCUS (iOS, on the App Store)** – cognitive training app for visual attention and short-term memory. Contributed to the app concept, designed the interfaces and visual elements, and helped present the product.
- **Stivo (iOS, on the App Store)** – productivity app for building daily habits and goals. Contributed to user flows and interface elements, and applied Design Thinking throughout development.
- **Abyan (fintech design challenge)** – Arabic-first (RTL) investment dashboard with clear navigation.
