Professional Summary

UX/UI Designer and digital product enthusiast with hands-on experience in developing app concepts and designing user-centered digital experiences. Experienced in conducting user research, analyzing target audience needs, developing digital solutions, and creating user-friendly interfaces through Apple Developer Academy projects. Skilled in transforming problems into clear product ideas using Design Thinking and Product Thinking methodologies. Combines an academic background in Applied Linguistics with strong communication skills and understanding of user behavior. Seeking to contribute to developing effective digital products that deliver meaningful user experiences.

Work Experience

UX/UI Designer - Apple Developer Academy App Projects | Apple Developer Academy at TUWAIQ | Riyadh, Saudi Arabia | 2023 - 2024

- Conducted challenge-based app projects from problem discovery and user analysis to product development and final presentation.
- Conducted user interviews and surveys to collect insights, analyze user needs, and validate problems.
- Designed wireframes, prototypes, and user interfaces based on UX principles and user-centered design approaches.
- Collaborated with multidisciplinary teams to develop digital products and improve usability.
- Prepared and delivered product presentations explaining the problem, target audience, proposed solution, and product value.

English Trainer - Al Faisal International Academy | July 2022 - November 2022

- Delivered English training sessions and developed simplified educational content based on learners' needs.
- Prepared and organized training plans and learning materials to support effective learning experiences.
- Developed communication and presentation skills through interaction with different learner levels.
- Simplified language concepts and transformed complex information into clear and understandable content.
- Monitored learners' progress and provided guidance and support to improve English language skills.

Education

Bachelor of Arts in Applied Linguistics | Princess Nourah bint Abdulrahman University | September 2018 - June 2022

Apple Developer Academy First Year Program | Apple Developer Academy at TUWAIQ
